Idorsia measures and reports its non-GAAP operating performance, which management believes more accurately reflects the underlying business performance. The Group believes that these non-GAAP financial measurements provide useful supplementary information for investors. These non-GAAP measures are reported in addition to, not as a substitute for, US GAAP financial performance.

Liquidity

(in CHF millions)	Liquidity
Liquidity Dec 31, 2022	466
Liquidity movements Q1	(254)
Liquidity Mar 31, 2023	212

As of March 31, 2023, liquidity of CHF 212 m consisted of cash only .

Liquidity of CHF 212 m was mainly held in Swiss francs (CHF 138 m), US dollars (equivalent of CHF 48 m) and Japanese Yen (equivalent of CHF 18 m).

Material uncertainty to continue as a going concern

The unaudited interim financial report has been prepared on the basis that the Group will continue as a going concern. This will require to secure additional funding as the liquidity (CHF 212 m as of March 31, 2023) does not cover the negative cashflow for the next twelve months based on our current business plan.

While the Group is actively seeking to raise additional cash, there can be no assurance the necessary funding will be available.

If the Group is unable to obtain adequate resources to fund the operations, the operations will need to be modified. If such measures are not sufficient, and/or additional funding is not obtained in due course, the Group may be forced to discontinue its operations entirely.

This material uncertainty may cast significant doubts about the going concern of the Group. Refer to Note 1. Description of business and summary of significant accounting policies of the 2022 consolidated financial statements for further details regarding the going concern assessment.
